## PROJECTS

- **Micro Financing and Case Study on Shri Mahila Griha Udyog Lijat Pappad (2016)**

This study showcased a detailed concept of Micro financing & self-help groups in India and aimed to check whether micro financing has supported and empowered women in India. This project involved a case study of Shri Mahila Griha Udyog Lijjat Papad and studied its growth over years. The results showed that there has been an evident growth in revenue from Rs.16,587 to 8 billion since its inception till 2018. Also, Lijjat Papad led to an exceptional growth of women belonging to weaker section of the society. It raised employment from 7 women in 1959 to 43000 women in 2018.

- **Determinants of economic growth of BRICS countries (2022)**

The project aimed to study the main and dominant factors that led to economic growth in Brazil, Russia, India, China and south-Africa, which are abbreviated as BRICS countries. The project involved the use of stata13 software for the purpose of studying the data related to economic growth of BRICS countries related to the period of 10 years. Further, the project also suggest the measures through which economic growth in these countries can be further enhanced. The work also suggested the ways through which the factors leading growth in BRICS could be replicated in other countries of the world.
